- Github
- SQL

SOFT SKILL

- Teamwork
- Problem solving
- Flexibility
- Reliability

LANGUAGES

- Italian (Native Speaker)
- English (Level B2)

ABOUT ME

I am a serious and responsible person with a strong sense of honesty and respect, values that I share in my daily relationships. My curiosity pushes me to explore new ideas and learn constantly, I am determined and this helps me to tenaciously pursue every goal I set for myself, and in addition, my ability to adapt easily to different situations allows me to face the challenges I face with serenity.

I have a good balance between the pleasure of being in company and the need to devote time to myself, finding in both situations enriching moments.

I enjoy traveling (whenever possible) to discover new cultures and traditions, as I believe these experiences help one grow and expand one's worldview.

I have always had a great interest in the world of the web, which for me represents a means of connection and discovery.

TRAINING EXPERIENCE

- **start2impact UNIVERSITY** 2023 - 2024
Front-End Development Master
 - Studied basic programming languages such as HTML, CSS and Javascript;
 - In-depth study of CSS frameworks such as Tailwind and Bootstrap;
